DETAILED ACTION

Election/Restrictions

1. Claim 1, 3-12, 14, 18-31 and 34-41 are allowable. The restriction requirement, as set forth in the Office action mailed on 10/05/04, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 13 and 15-17, directed to a non-elected species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 33, 42-73, directed to a non-elected invention are maintained as withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

Art Unit: 3644

1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anneliese Mayer on September 27, 2006.

The application has been amended as follows:

Claim 3, lines 1 and 2: replace "mounting" with - -vertical- -

Claim 8, line 1: insert - -wherein said- - following the comma

Claim 22, line 1: replace "mounting structure" with - - vertical surface- -

Claim 40, line 2: replace "base" with - -first area- -

Claim 41, line 2: replace "base" with - -first area- -

Cancel claims 33, 42-73 as being non-elected without traverse in the response filed 12/09/04.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: the prior art fails to teach or render obvious the invention as claimed. The two most closely related references are directed to Demarest et al., US Patent 4,841,669 and Johnson et al., US Patent 6,807,768. Demarest fails to teach a cover assembly having an overhang portion that extends beyond the base. The main inventive concept of Demarest is to provide a bait device in which the top and bottom apparatus are equally sized for ease of manufacture and as such, any modification to change the shape of the cover would destroy the reference for its intended purpose. Johnson discloses the invention as claimed with the exception of an angled frustoconical surface

Art Unit: 3644

extending from the outer perimeter of the base. The Johnson reference discloses the use of feet that may be construed as frustoconical however, they are not considered to extend from the outer perimeter of the base as they are clearly shown to lie within the outer perimeter of the base and therefore any such modification would use improper hindsight reconstruction.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
